

Data Portability Statement

The GDPR requires an organisation that stores data to enable transfer of that data from one organisation to another.

In schools, pupil data is transferred using the Common Transfer File (CTF) which is a Department for Education standard process. This is outside the scope of data portability in the GDPR.

Employee data will be shared to enable new starters and leavers to take up new roles as easily as possible. When new data is provided to school it will then be administered and processed within the terms of the Data Protection and any other relevant policy.
