

More number stories to draw

Grown-ups please read each story and ask your child to draw a picture, then cross out to show the subtraction. Can they write the number sentence too, eg, $10 - 5 = 5$

1. There were 8 children playing in the garden. 3 went home for tea. How many were left?

2. There were 6 children in the kitchen. 2 went to bed. How many were left?

3. There were 5 children on the sofa. 3 went outside to play. How many were left?
