C Art Vocabulary			
1	sculpture	A 3-D object made from materials such as stone, clay or marble.	
2	landscapes	An area of land.	
3	photography	Taking pictures using a camera.	

D Design Technology

All of our food comes from plants or animals. A fruit salad is made from a variety of fruits and vegetables that come from plants. Some fruit grows in this country and other fruit we have to get from abroad. This depends on what the fruits need to grow.. We will be planning and making our fruit salad thinking about hygiene, chopping and slicing.

E Science

To keep healthy, humans need to make good choices about what they eat. Nutrients are found in food and they are the things that help our bodies grow, stay healthy and strong. To make sure we get enough nutrients, we need to eat a 'balanced diet' - this means eat a little bit of something from each different food group.

All our food comes from plants or animals. Unlike plants, humans can't make their own food. Did you know we eat different parts of a plant? We can eat the flowers, stems, leaves and roots of plants.

F Art

Andy Goldsworthy is a famous British sculptor and photographer. He makes his art from materials he finds outside, including sticks, rocks and even cow dung!

Carl Warner is a famous British artist who uses photography in his art work. He makes landscapes out of food!
